⏳ **9:00 a.m**

📍 **IDHAYA AUDITORIUM**

ABOUT THE COLLEGE

Idhaya College of Arts and Science for Women, proudly Affiliated with Pondicherry University, has been a beacon of educational excellence since its establishment in 2004 by the Franciscan Sisters of the Immaculate Conception. The college's motto, "Arise and Shine," encapsulates its unwavering commitment to nurturing young minds and empowering them to become catalysts for positive societal transformation. With a dedicated focus on women's education, the institution is steadfast in its mission to cater to the diverse needs of rural, marginalized, and underprivileged women, ensuring equitable access to quality education and opportunities for all.

ABOUT THE DEPARTMENT

The Department of Computer Applications at Idhaya College of Arts and Science for Women, Puducherry, was established in 2015 with the mission to empower young women through quality education in the ever-evolving field of Information Technology. Affiliated to Pondicherry University, the department offers a 4-year full-time BCA (Hons) programming designed to provide a strong foundation in computer science concepts, programming skills, and emerging technologies. With modern computer labs, experienced faculties, and a curriculum that blends theory with practical exposure, the department nurtures analytical thinking, creativity, and professionalism. Through seminars, workshops, industry interactions, and skill-based training, it equips students to excel in IT careers or pursue higher studies, while fostering ethical values and a commitment to societal growth.

OBJECTIVES

The objective of studying cybersecurity threats and vulnerabilities in everyday life is to understand how common activities-such as online banking, social media use, and digital communication-can expose personal data to risks like hacking, phishing, and malware attacks. It aims to raise awareness about protecting devices, networks, and sensitive information by adopting safe online practices, using strong passwords, performing regular updates, and maintaining responsible digital behavior to reduce cyber risks and ensure both personal and organizational security.

TOPICS

- Introduction to Cyber Security
- Common Cyber Threats (Phishing, Malware, Ransomware, Hacking)
- Social Media Risks
- Online Banking & Payment Frauds
- Password Security & Authentication
- Mobile & Wi-Fi Security Risks
- Data Privacy and Identity Theft
- Safe Browsing Practices
- Software Updates and System Protection
- Cyber Safety Awareness and Best Practices
